

RETURNABLE FABRIC PACKAGING SYSTEMS

Bags & Pouches for Returnable Shipping Racks, Work In Process Carts, and Sequencing Dollies

Benefits of Fabric Packaging:

- Returnable system eliminates all expendable materials
- Flexible and Compact Designs
- Increased Part Nesting Capability
- Class A Surface Protection
- Fabric is Moisture, Mold and Mildew Resistant
- Reinforced Strength and Durability
- No Tooling Costs
- Cost Effective Solutions

Engineering, Design, Manufacturing & Distribution:

- 145,000 square foot facility
- Fabric Cutting: CNC & Die Cutting
- Industrial Sewing
- Plastic Welding: HF / RF, Hot Air, Hot Wedge, and Ultrasonic

Strategically Located Manufacturing & Distribution Facilities:
